

CWMA Quick Survey: Zero Waste Initiatives & Intentions

2021 Collector open June to September

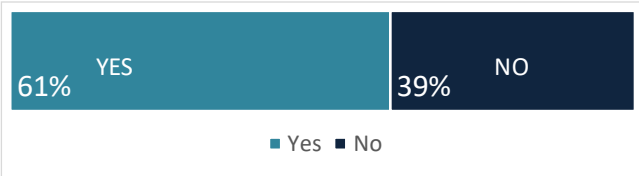

Do you currently have Zero Waste Strategy?

Where does zero waste rank in the strategic political priorities of your community?

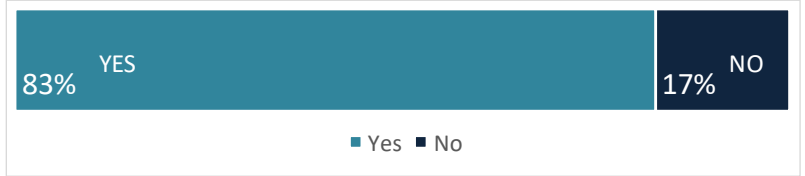

Do you have dedicated staff for zero waste initiatives?

Details provided:

- > 2 staff oversee portions of ZW as part of their overall responsibility
- > It is an extension of our presence as recyclers at the annual Fall Fair. The depot workers are paid; volunteers/board members are not.
- > Waste reduction/ circular economy falls under two departments with one staff person in each doing some work in waste reduction but
- > We have 3 full time staff members that work in Waste Diversion but no official Zero Waste directive/policy

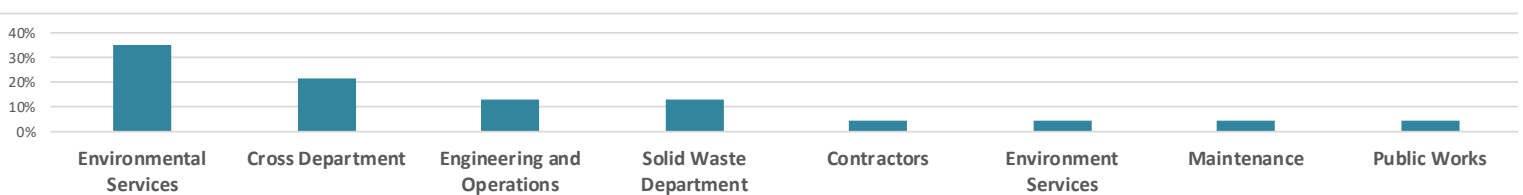

Do you have a budget for zero waste initiatives?

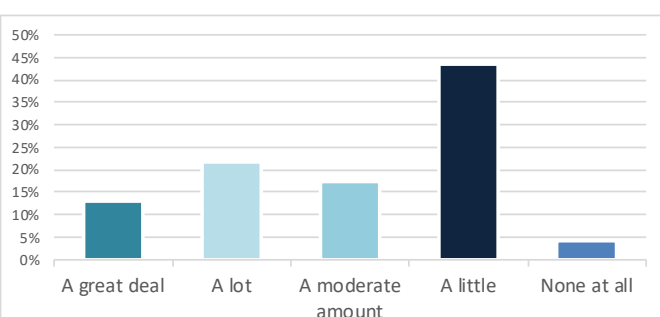

Details provided:

- > Costs are negligible and we spend what we need to spend.
- > General budget allocations at this time, more specific/targeted budgets will be developed to support our new SWMP implementation
- > Limited budget for all Solid Waste programs and services, not dedicated specifically for zero waste
- > We do not have a specific budget for ZW but do have budgets for related initiatives
- > We have a very limited budget and we are very isolated so makes it that much more challenging
- > We have a Waste Diversion budget but no specific zero waste initiatives

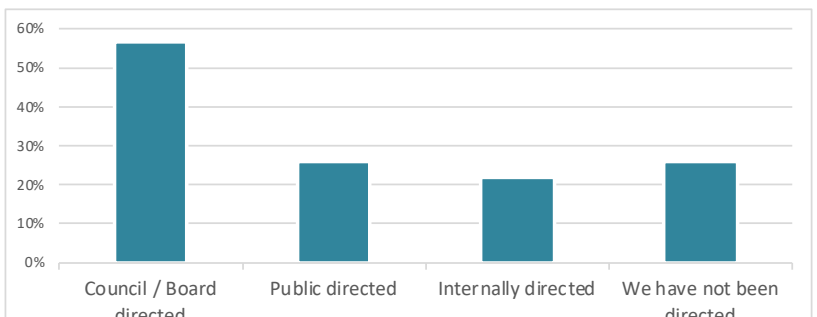

What function department of your organization has responsibility for waste reduction planning?

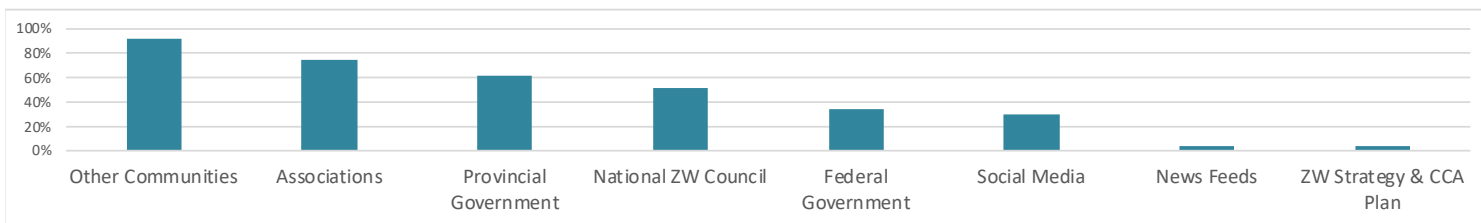

How much have you engaged with your residents related to zero waste programs?

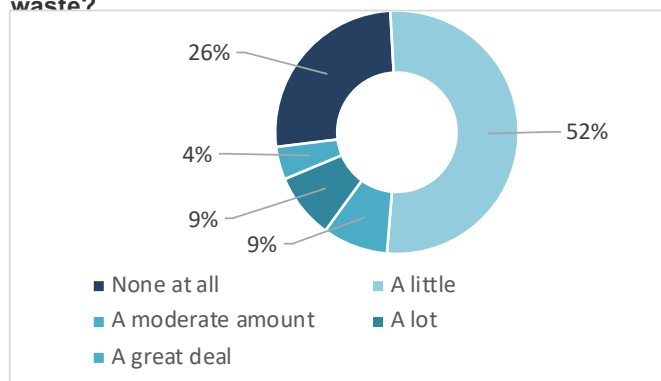

By whom have you been directed to address zero waste?

Where do you turn for information to inform your initiatives on zero waste?

How much has your organization done to change your own purchasing agreements to reduce waste?

Have you already changed any existing regulations or legislation in your area toward zero waste initiatives?

If yes, please expand:

- > Source Separation bylaw for municipal solid waste
- > Bylaws requiring material separation. Demolition Waste bylaw introducing
- > Checkout Bag Regulation Bylaw update and relaunch
- > Fall Fair food sellers are now required to use recyclable wrappers, plates,
- > Landfill bans
- > Recyclable material bans at landfills
- > We just passed a bylaw amendment to no longer accept certain items in our municipal landfill (i.e. cardboard, clean white styrofoam, organic yard waste)

How likely is it you will seek to change regulations in your area toward zero waste?
